

Environmental Day

Department of Civil Engineering celebrated the World Environmental day on 21 June 2019. The Plantation of saplings was inaugurated by Dr. L Basavaraju Principal ATMECE. On the occasion sapling of various types of plants were planted in the campus. Around 100 Students also participated in the event by planting saplings and assuring the faculties that they would further carry out planting activity in their localities.

DEPARTMENT OF CIVIL ENGINEERING

PLASTIC BAN IN ATME CAMPUS

As per the direction of principal, committee visited to the all departments and created awareness to the student about plastic usage and disadvantages of plastic. The following point were covered in awareness talk

- One of the main disadvantages of plastic bags is that they are not renewable. The reason behind this is that they are made of petrochemicals, a non-renewable source of energy. They can be recycled, but not as easily as paper bags.
- Plastic bags can last for as much as hundreds of years. In other words, long after you are no more, the plastic bag used by you will be in existence.
- Many countries banned plastic bags example legal aspect of banning plastic bags worldwide

In this context ATME college of Engineering has banned use of plastic in form of plastic bag, polybag, or pouch, flexible, plastic film, nonwoven fabric, or plastic textile. Plastic bags were being use for containing and transporting goods such as foods and other waste with in the campus

Our college had taken initiative for Plastic Free Zone campus. In this regard, the students were addressed about Plastic free zone and took Oath from students. The students were addressed to create awareness about usage of plastics.
