Date: 01/07/2021

## **Circular**

With reference to the circular by VTU, Ref: VTU/PS/2021-22/1006, Dated 29th June 2021, it is mandatory for all the staff and students to get vaccinated by 08/07/2021 for the commencement of on-campus classes and conduction of examination. In this regard, the college had organized a vaccination drive on 30/06/2021 on the college premises. The vaccination drive was partially successful as the number of students attended was not as expected. The data collected by the COVID response team reveals that many students are not administered the vaccine as of date. Thus the college is conducting another drive on or before 07/07/2021 so that all students get vaccinated before the commencement of the offline classes. The exact date will be intimated after receiving approval from health officials. All students are also informed to submit the vaccination certificates before the commencement of the offline classes failing which they will not be entertained to attend college considering the safety of such students. If the students fail to get vaccinated even in the said drive then the sole responsibility lies with such students get vaccinated by external sources.
