Report on

My Story: Motivational session by Successful Entrepreneur

Date: 10 November 2021

Time: 3 PM

Mode: Offline

Venue: ATME Campus (Room 401)

Institutions Innovation Council – ATMECE has organised a Motivational session “My Story” By Successful Entrepreneur on 10th November 2021 at 3.00pm.

Mr.Sumanth Prabhu M G being Co-Founder and CEO of Kidvento Education & research Pvt Ltd., was the resource person for the event. He said Entrepreneurship is the act of starting and running your own business or a tendency to be creative and wish to work for yourself in your own ventures. He also gave numerous example from his life journey which he overcame during set up of his venture. He motivated the students with his success story to become entrepreneurs.

The IIC President Dr.Rathnakar G, Dean-Student Affairs, Mrs. Bharathi B, Convener IIC, faculty co-ordinators, Student coordinators, volunteers were present in the event.

Report of

Workshop on Design Thinking, Critical thinking and Innovation Design

Date : 11th February 2022

Time : 11.00 AM

Mode : Offline

Institutions Innovation Council – ATMECE has organised a Entrepreneurship Opportunities- A career Guidance to the young minds” for the students of the institution on 11th February 2022.

Dr. Mohana Kumara K C, Assistant Professor, Department of Mechanical Engineering was invited as the Resource person;

A Design Thinking workshop is **facilitated meeting where multi-disciplinary teams plan and prototype user-centered designs**. Unlike lectures or presentations, Design Thinking workshops are used when teams want to arrive at a user-centered solution while working together.

He also added “Design thinking is a recently emerging powerful process of problem solving that begins with understanding the requirements of the customer which have largely gone unaddressed by the existing companies. This process has lead to opening new doors which has given an impetus to drive innovation that encompasses concept development, applied creativity, prototyping, and experimentation. When design thinking techniques are applied to business, the success rate for innovation improves in leaps and bounds. Prof Vora with his immense knowledge gave his guidance to a few students who required inputs into the conduct of their own businesses.

The workshop witnessed the active participation of around 50 students. The workshop was concluded with a Q&A session

Report of

NATIONAL INNOVATION DAY

Date : 16th February 2022

Time : 3.00 PM

Mode : QUIZ – Online and Offline

Institutions Innovation Council – ATMECE has organised a Quiz competition on “National Innovation Day” for the students of the institution on 16th February 2022.

Innovation Day is observed on February 16th of every year. Innovations are a process of translating an idea or invention into a good or service that creates value for which customers will pay. It is an action of inventing a new method, product, idea, and so on. Innovation is considered to be one of the overused terms of this generation. On the day young innovators and business leaders come together to celebrate the change in their particular industry and seek solutions for tomorrow’s challenges. In an era of increasing complexity and competition, scientists must have a platform to work face to face and look beyond to solve problems. So this day creates an opportunity for scientists to meet their peer groups and discuss. This term is not always used professionally, even when one has a problem and thinks of a solution, he undergoes the process of inventing.

Based on this a Quiz competition was organized in the college for the students and are allowed to utilize the facilities in the college campus. A total of 250 students participated in the quiz.

Report of

E-Symposium on Building Innovation Eco system in Educational institution-Day 2

Date : 12th January - Disseminated on 17th February 2022

Time : 3.00 PM

Mode : Offline

Institutions Innovation Council – ATMECE has organised a E-Symposium on Building Innovation Eco system in Educational institution” for the students and faculties of the institution on 17th February 2022.

E-Symposium on Building Innovation and Entrepreneurial Ecosystem in Educational Institutions was held on 11th to 12th Jan 2022 as part of the ‘National Innovation Week’, Azadi Ka Amrit Mahotsav (AKAM) celebration from 10th – 16th Jan 2022. The Ministry of Education, AICTE, and Ministry of Commerce and Industry (DPIIT) in collaboration with the Ministry of Culture, Govt. of India were jointly organized it.

<https://www.youtube.com/playlist?list=PLmP9QrmTNPqDME9rXF2ZPgiRggZN1zHwx>

Faculties and students joined the event online.

The same was disseminated to the student’s offline in the college.

Report of

An Overview of Intellectual Property Rights

Date : 18th February 2022

Time : 03.00 PM

Mode : Offline

Institutions Innovation Council – ATMECE has organised a workshop on “An overview of Intellectual Property Rights” for the students of the institution on 18th February 2022.

Dr. Mohanakumara K C, Assistant Professor, Department of Mechanical Engineering was invited as the Resource person;

He delivered his thoughts such that, Intellectual Property Rights are legal rights, which result from intellectual activity in industrial, scientific, literary & artistic fields. These rights Safeguard creators and other producers of intellectual goods & services by granting them certain time-limited rights to control their use. Protected IP rights like other property can be a matter of trade, which can be owned, sold or bought. These are intangible and no exhausted consumption.

He covered Intellectual property is an intangible creation of the human mind, usually expressed or translated into a tangible form that is assigned certain rights of property. Examples of intellectual property include an author's copyright on a book or article, a distinctive logo design representing a soft drink company and its products, unique design elements of a web site, or a patent on the process to manufacture chewing gum. Intellectual property rights (IPR) can be defined as the rights given to people over the creation of their minds. They usually give the creator an exclusive right over the use of his/her creations for a certain period of time. Intellectual property (IP) refers to creations of the mind: inventions, literary and artistic works, and symbols, names, images, and designs used in commerce.

The workshop witnessed the active participation of around 50 students. The workshop was concluded with a Q&A session

Report of

Workshop on Entrepreneurship Skill, Attitude and Behaviour Development

Date: 19 February 2022

Time: 3 PM

Mode: Offline

Institutions Innovation Council – ATMECE has organised a Workshop on Entrepreneurship Skill, Attitude and Behaviour Development” for the students of the institution on 19th February 2022.

Mr. Hemanth B R, Assistant Professor, Department of Mechanical Engineering was invited as the keynote speaker.

The Workshop aimed at to motivate the students to take up Entrepreneurship and to make to them aware of the skills required, attitude to have to be an entrepreneur and the behaviour changes to be made to become entrepreneur from a student.

This workshop sparks the entrepreneurial spirit in the budding innovators by guiding them on how to convert their Innovative Ideas and emerge as successful Entrepreneurs. Becoming an entrepreneur is an important career decision, and to plunge into this domain requires the right skill set, attitude, and behaviour.

The workshop witnessed the active participation of around 40 students. The workshop was concluded with a Q&A session

Report of

Entrepreneurship Opportunities - Career Guidance to Young Minds

Date : 19th February 2022

Time : 03.00PM

Mode : Offline

Institutions Innovation Council – ATMECE has organised a Session on “Entrepreneurship Opportunities - Career Guidance to Young Minds” for the students of the institution on 19th February 2022.

Dr. Mahesh Lohith, Hod, Department of Physics was invited as the resource person. He emphasized on “Entrepreneurship Opportunities - Career Guidance to Young Minds.”

He also added “Entrepreneurship education fosters advanced skills of creativity and innovative thinking which empowers and inspires students to take initiatives, risk decisions and accept responsibility to thrive in the challenging world. Such students develop the ability to recognize opportunities, thinks critically, solve problem creatively and above all learn to push boundaries. The skills of critical-thinking, communication and collaboration not only help in making them forward thinking individuals or develop in them a nimbleness to adapt to rapid change but also in shaping their own careers.

Types of Jobs You Can Get with Entrepreneurship skills are like Mid-level Management for an Entrepreneurship Degree Holder, Business Consultant, Sales, Research and Development, Not-for-Profit Fundraiser, Teacher, Recruiter, Business Reporter and etc.

The workshop witnessed the active participation of around 50 students. The session was concluded with a Q&A session

Report of

Session on Achieving Problem Solution Fit & Product-Market Fit

Date : 22nd February 2022

Time : 3.30PM

Mode : Offline

Institutions Innovation Council – ATMECE has organised a Session on Achieving Problem Solution Fit & Product-Market Fit” for the students of the institution on 22nd February 2022. Mr. Vinod Kumar P, Assistant Professor, Department of Electrical and Electronics Engineering was invited as the resource person.

He emphasized on “The one and only goal of a startup should be to solve a problem that satisfies a need in the market.”

He also added “The problem, its solution and the related market should be well defined in the beginning. Product/market fit as a concept seems relatively straightforward – why would anyone ever build something that no one wants? Yet, according to an analysis by CB Insights, the lack of market need is why 42% of startups fail. The same report also lists many of the other reasons why startups fail, which also can be seen (at least partly) as a result of lack of market need – things like lack of cash (29%), too much competition (19%), and pricing issues (18%).

The workshop witnessed the active participation of around 50 students. The session was concluded with a Q&A session

Report of

Entrepreneurship Opportunities- A career Guidance to the young minds

Date: 22nd February 2022

Time: 3.30PM

Mode: Offline

Institutions Innovation Council – ATMECE has organised an Entrepreneurship Opportunities- A career Guidance to the young minds” for the students of the institution on 22nd February 2022.

Mrs. Sushma V, Assistant Professor, Department of Computer Science and Engineering was invited as the keynote speaker.

She said “Entrepreneurship is all about the propensity to take risks, plan, organize, streamline and manage a new business idea in a dynamic global marketplace. Entrepreneurship is marked by job creation rather than job seeking. Entrepreneurs are independent-minded, innovative people who are on a quest to create unique products and services. Entrepreneurship might be difficult, but it is a rewarding journey.”

She also added “Today, entrepreneurship has become one of the significant career choices being pursued by the youth because of the following reasons:

- The ambition to create and execute a business plan from scratch
- The desire to be their own boss and master of their fate
- The motivation to take risks in a changing global economy where several opportunities lie unexplored
- The aim to be financially prosperous and take their growth trajectory to unprecedented, new heights

The workshop witnessed the active participation of around 50 students. The workshop was concluded with a Q&A session

Report of

SESSION ON PROBLEM SOLVING AND IDEATION WORKSHOP

Date : 25th February 2022

Time : 3.00pm

Mode : Offline

Institutions Innovation Council – ATMECE has organised a “Session on problem solving and ideation workshop” for the students of the institution on 25th February 2022.

Mrs Keerthi A Kumbar, Assistant Professor, Department of Electronics and Communication Engineering was invited as the resource person.

She gave a brief outline about how a person can solve problems and come up with new ideas for betterment and to start business. Inventive critical thinking is an advancement structure centred on better ideation and meetings to generate new ideas. This online course will assist understudies with getting outside your own psyche to open new answers for issues or difficulties you've looked for quite a long time. This Webinar is produced for understudy hoping to develop, adjust their outlook to glance through another focal point, and tackle issues or difficulties innovatively.

The workshop witnessed the active participation of around 50 students. The workshop was concluded with a Q&A session
