A Report on

Android Project Exhibition
2022-2023

Organized by,

DEPARTMENT OF COMPUTER SCIENCE &

ENGINEERING in Association with

Android Club

ATME COLLEGE OF
ENGINEERING

13th kilometer, Mysuru-Kanakapura-Bengaluru
Road,Mysuru-570028, Karnataka

Department of Computer Science & Engineering

The Department of Computer Science and Engineering started an Android Club during academic year 2019-20 to encourage the students to acquire the knowledge in Android Technology.

The objective of the club is as follows:

1. To create awareness about android technology among students.
2. To solve social problems using Android Technology.
3. To learn and gain detailed knowledge about android and other new technologiesrequired for mobile application development.
4. To share knowledge with students and faculties.

Faculty Coordinators:

1. **Mrs. Kavya P O, Asst. Prof ,Dept. of CSE**
2. **Mr. Raghuram A S, Asst. Prof ,Dept. of CSE**

Student coordinators :
From 2nd year

1. Harshitha
2. Harish
3. Vignesh
4. Pooja

From 3rd year

1. Pavan Kumar D
2. Kavana

Events organized under android club as follows

DATE: 8th July 2023, 12 PM to 4 PM   **Venue: Android Lab, Department of CSE**

Faculty In charge: Mr. Raghuram A S and Mrs. Kavya P O

           Assistant Professor, Dept. of CSE

           ATMECE, Mysuru

Judges: Mrs. Keerthana M M and Mrs. Vanitha

           Assistant Professor, Dept. of CSE

           ATMECE, Mysuru

ATME
College of Engineering

Department of Computer Science & Engineering

Total No. of Students participated: 103

Mini project exhibition was scheduled on 8th July 2023 at 12PM in the departmental labs. The students had to exhibit their technical as well as presentation skills wherein they were given an opportunity to demonstrate their project by using their laptops.

Computer Science Department faculties were assigned as departmental coordinators for the android project exhibition who helped student participants with the required details.

The main agenda behind the exhibition was to explore the technical skills among our students and give more exposure towards technical knowledge which is very much required in building their career. The event mainly focused in developing interest among students toward new innovation and rapidly growing technology.

The faculties also encouraged the students, which brought more zeal and enthusiasm among the students to work harder towards the success. Near about 50 teams participated in this event and each team came up with a unique project which clearly showed the technical ability of our students.

The judges not only gave the judgments but also helped and guided the students to make some improvisations in their project wherever required which in turn helped the students to work on their project in a better way.

Overall, the event turned out to be a very successful one since many teams participated and were satisfied with their efforts. This also gave them the confidence to work out more and more project models which would grace them with high technical knowledge and skills.
