Virtual Labs

Virtual Labs provide remote-access to simulation-based Labs in various disciplines of Science and Engineering to encourage students to conduct experiments by arousing their curiosity. This would help them in learning basic and advanced concepts through remote experimentation. To provide a complete Learning Management System around the Virtual Labs where the students/ teachers can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.

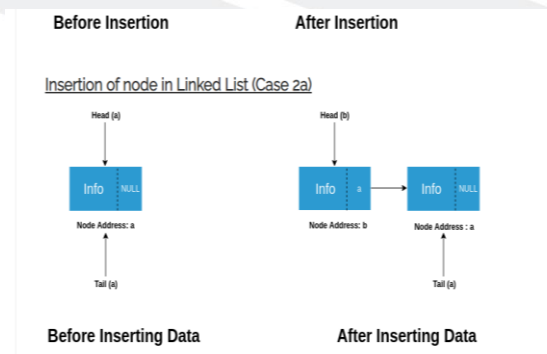

Lab Name: Data Structures and Laboratory

Semester: 3rdSem

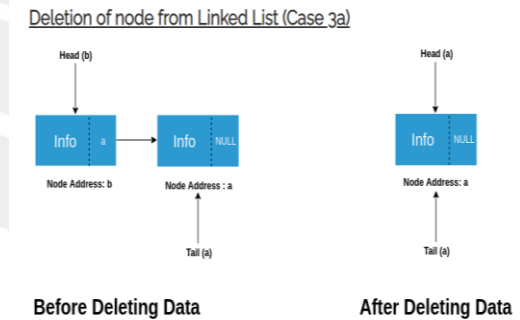

Faculty Name: Kavya P O

Conduction Date: 12/12/2021, 13/12/2021, 14/12/2021

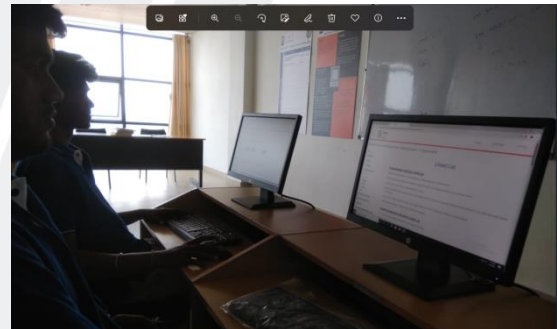

Experiment Title: Linked List

Snapshot 1 : Inserting a Node

Snapshot 2 : To Deleting a Node

Department of Computer Science & Engineering

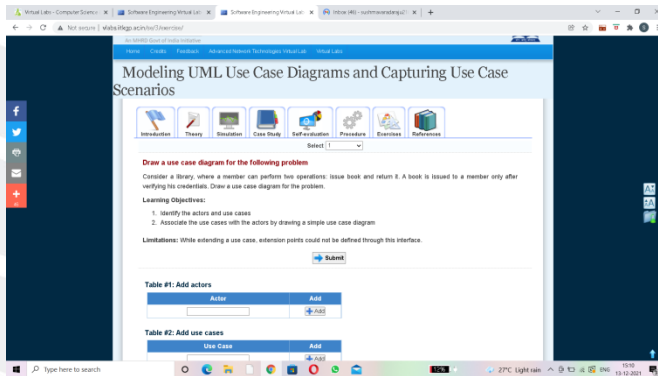

Subject Name: Software Engineering

Semester: 3rd Sem

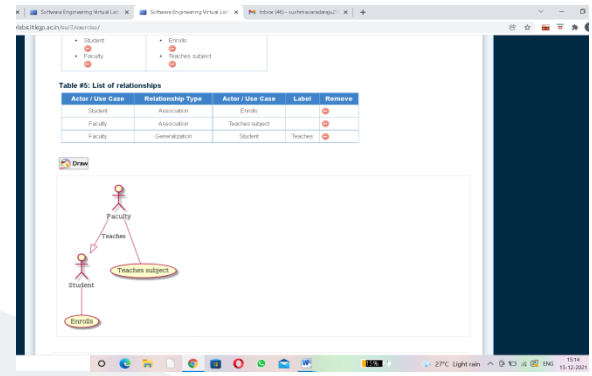

Faculty Name: Sushma Varadaraju

Conduction Date: 13/12/2021, 14/12/2021

Experiment Title: Modeling UML Use Case Diagrams and Capturing Use Case Scenarios

Snapshot : To add actors for a use case

Snapshot : Resultant Use Case Diagram
